Crimeshield Security Grilles- Schools Testimonials.

For prices call: 0151 495 5740

- **Wrexham Primary School - From Mr. Mike Morris - Head Teacher**

Thank you for fitting Crimeshield mesh to our windows over the Christmas holidays. As you are aware, we were burgled on no fewer than five occasions over a six week period prior to the holidays. Since Crimeshield has been fitted, we have had no trouble whatsoever. Not only is the mesh a very effective deterrent to burglars, it also prevents the School windows and doors being vandalised which was an ongoing problem at our School. I have recommended Crimeshield as an excellent product to my Head Teacher colleagues.

- **Widnes High School - From Mr. Jeff Hughes , Head Teacher**

The Crimeshield product meets our needs in terms of providing effective security, not to mention peace of mind, by protecting expensive school equipment and resources that are essential to everyday teaching and learning. The product has many advantages over shuttering, not least a cheaper cost and the fact that time is saved for our site team who would otherwise have to open and close shutters each day. Both the external appearance of the product and the light allowed inside classrooms are surprisingly good and staff have been very pleased with the outcome.

- **Warrington Primary School - From Mr. Malcolm King, Head Teacher**

Until the installation of Crimeshield, our school was subject to constant vandalism and 'professional' break-ins on a regular basis even though the school was alarmed. Since the installation of Crimeshield (now over 2 years ago) we have not had a single window broken or even an attempted break in. It is certainly true to say that the product has virtually paid for itself already and that we will be reaping the benefits for years to come. I would be most happy to recommend Crimeshield and Keytrak to any school - both are excellent !

- **Runcorn Primary School - From Mrs. C Howard, Head Teacher**

The installation of Crimeshield to the front elevation of our building has proved to be highly successful in fulfilling our aesthetic and security needs. The Crimeshield units reflect the original glazing style - few of our parents have actually noticed them until it has been pointed out to them! Crimeshield has undoubtedly prevented windows from being broken during the school holidays. Teaching and support staff report that the Crimeshield units do not significantly cut down the levels of light and that they are unobtrusive.
